## 6. Answers to frequently asked questions about the IASS website

Q.: Why does my name not appear in the online directories of the IASS website?

A.: If you want your profile to be visible in online directories, which are restricted to only IASS Members, login to the IASS website, go to **Member Tools** and choose **View Profile**, click **Edit Profile**, select **Privacy** and then select **Show profile to others** checkbox. Don't forget to click Save after that. (Note that the term "others" means only IASS Members because all directories on the website are restricted to only the membership.)

Q.: How can I renew my membership for more than one year?

A.: The only way to renew your membership for more than one year is to sequentially renew for one year at a time using credit card payments. Upon each renewal payment made, return to your profile and select "**Renew to 1 January ...**" to pay for one additional year to your membership. Repeat for each year that you want to add.
